

# Durchlasstest

| Hersteller | Produktnname | Probename | Datum                      |
|------------|--------------|-----------|----------------------------|
| Foshan     | Esmoo        | A329      | 2020-05-12 17:43:24.660000 |

|                            |                         |
|----------------------------|-------------------------|
| Anzahl Regenerationszyklen | 0.0                     |
| Differenzdruck Maske       | 2.3 mbar                |
| Volumenstrom               | 95.0 L/min              |
| Nozzle Pressure            | 150.0 mbar              |
| NaCl Konzentration         | 3.0 w%                  |
| Setup                      | Maskenteststand v1.0    |
| Charge                     | -                       |
| Durchlass                  | 0.46                    |
| Aerosolkonzentration       | 20.37 mg/m <sup>3</sup> |
| Messzeit                   | 180 sec                 |

Optische Mängel:
